

REACH Statement

Dear Valued Customer,

Swissbit confirms that our products meet the requirements of the current

**EU Regulation No. 1907/2006
in combination with
EU Regulation No. 207/2011 / EU Regulation No. 1907/2006, annex XVII**

Based on supplier declarations and our continuous review we inform you, that the below named Swissbit products do contain **BPA (80-05-7)** or **Lead (7439-92-1)** or with a threshold above 1000ppm, but do not contain any other substances on the SVHC candidate list (**247 substances valid from 2025-01-21**) above this threshold and are fully compliant with the related requirements of European Union Regulation (EC) 1907/2006.

Product Series marked as "None" do not contain any SVHC substance.

Please note, that DRAM products and inactive products, whose components are no longer monitored and that are EOL, are excluded from this list.

Below table shows an overview over the REACH Status of active Swissbit Products.

Product Type:	Product Series:	Swissbit Product Number:	SVHC Substance		
			BPA (80-05-7)	Lead (7439-92-1)	None

REACH is a European Community Regulation on chemicals and their safe use (EU Regulation No. 1907/2006).

It deals with the Registration, Evaluation, Authorization, and Restriction of Chemical substances.

Swissbit supports the aim of REACH in improving the protection of human health and the environment through the better and earlier identification of the contained properties of chemical substances. Swissbit meets all applicable REACH requirements and is committed to provide its customers with information about substances in its products as required.

Under REACH, the registration provision is applicable to manufacturers or importers of chemicals and does not apply to Swissbit's assembling operations. As referred to in the REACH regulations Swissbit is a downstream user, so it is anticipated that the raw material manufacturers within the supply chain will register substances used in electronic products. To further ensure compliance, Swissbit continually reviews information from its suppliers about delivered material, packaging, 3rd party items and products concerning substances which are contained on the European Chemical Agency (ECHA) Candidate List of Substances of Very High Concern (SVHC).

REACH is a unique opportunity for the development of customer relationships and company differentiation. Please do not hesitate to contact us should you have any questions. We will be happy to share our expertise and data with you.

For details based on your specific product requirement regarding product substance information according to REACH please contact your local Sales Representatives (sales@swissbit.com, salesna@swissbit.com) or write us an E-Mail to qm-support@swissbit.com.

On request SCIP Information can be shared. Please contact your local Sales Representatives (sales@swissbit.com, salesna@swissbit.com) or qm-support@swissbit.com.
